

Equipment

Assembled pallet gardens come with a single pallet with landscaping fabric attached to the back. A bag of soil will come with it to be placed inside. Flowers and vegetables are not included.

Tools required for assembly of the pallet garden include: safety glasses, safety gloves, and staple gun or nail gun.

Orders must be placed via phone or email. Orders may be available for pick up within 5 days after the order is placed. You may pick up your order M-F 8:00-4:30pm.

We are located in the Capitol Square Office Park:
1665 43rd St. S Suit 103
Fargo, ND 58103

RAIN BARRELS, RAIN BARRELS, RAIN BARRELS!

Once you have created you pallet or bale garden how do you plan on watering it? Rain barrels are an excellant way! Why?

Rain barrel benefits include:

Conserving water and reducing your monthly water bill.

Provides healthier water for you delicate plants.

Reduces stormwater runoff which reduces stress and pollutants on our river.

How can you get one?

Cass County SCD along with River Keepers has them available to purchase! We also have rain barrel workshops where you can build one of your very own to take home!

To purchase a rain barrel or for more information on rain barrels and our workshops please contact Ashley:

Bale Garden Benefits:

Space- Minimal space is needed

Maintenance- Looking for a WEED FREE garden? The best part of these micro-garden options is the fact they are virtually weed free!

Accessibility - No need for kneeling or constantly bending over.

Watering- When needed. If a soaker hose is used along with a timer there is NO WATERING required.

Harvesting- SIMPLE! For bigger root veggies such as potatoes simply lift up the bale and grab the potatoes that are hanging out of the bottom.

Aftermath: Towards the end of the season the bales will begin to break-down completely. The benefit here being straw from the bale is an excellent composting material. Use the residue to mix in as compost in other gardens or soils around the yard.

Pallet Garden Benefits:

Space- Minimal space is used especially for vertical plantings.

Maintenance- Low maintenance is needed for these. If planting veggies from seed there is slight potential for weeds to grow, however, there is little area that needs weeding and once plants grow to cover the soil area there should not be any weeds. If planting annual flowers from packs there is a great chance of having a weed free garden from the beginning.

Planting- SIMPLE! The pallet makes for perfect rows and allows for easy plant identification.

Aftermath- Realitively easy cleanup and the pallets may be reused for next year!
